

**SAVE \$3,000
A YEAR
ON YOUR
CAR**

CHANGING JUST A FEW HABITS COULD SAVE YOU \$3,000 PER YEAR PER CAR, OR ON AVERAGE \$6,000 PER HOUSEHOLD. THAT'S \$100 PER WEEK.
WORTH A LOOK RIGHT!

CREATED AND DISRTIBUTED BY

1 Drive like a chauffeur, not a taxi driver: **\$765**

Accelerate and brake slowly to reduce fuel and maintenance costs by at least **20%**.

2 Learn how to correctly inflate your tyres: **\$420**

Consistently pump your tyres to **10psi** higher than recommended to save on fuel and tyres.

3 Say goodbye to the dealership: **\$350**

'Fixed-price' and 'free' servicing are gimmicks to get you in the door. You'll always pay more. Shop around and save. Your warranty will not be impacted!

4 Don't auto-renew your insurance: **\$350**

Top tips:

- Shop around, don't auto-renew
- Vary your excess
- Purchase online
- Package your insurance
- Don't pay monthly
- Restrict your drivers to over 25
- Choose your extras carefully
- Add some security

5 Review your car finance: **\$320**

On a typical \$30,000 car loan at 8.5% interest, over five years, if you paid an extra \$100 per month you'd save **\$1,600** and **13 months** off the life of the loan, or \$320 per year.

6 Find a more convenient way to service your car: **\$300**

Taking your car to a dealership could mean a day lost in wages. For the average Australian that's **\$220**, plus a return taxis fare of **\$80** and you've suddenly lost \$300. Try mobile to save time and money.

7 Lighten your load: **\$270**

Excess weight of **100 kgs** equates to \$270 more in fuel, tyres and brakes for the average sedan.

8 Stick to your service schedule: **\$250**

An under-serviced car always costs more in repairs!
